### Home Lifts Habitat (Machine Directive)

Designed to enhance people lifestyle, Habitat offers safety and mobility freedom. Thanks to its unique design flexibility and its dimensions, it is the ideal solution for any modern house. Combined with the elegant Metron cabins, it brings bold design

Key benefits:

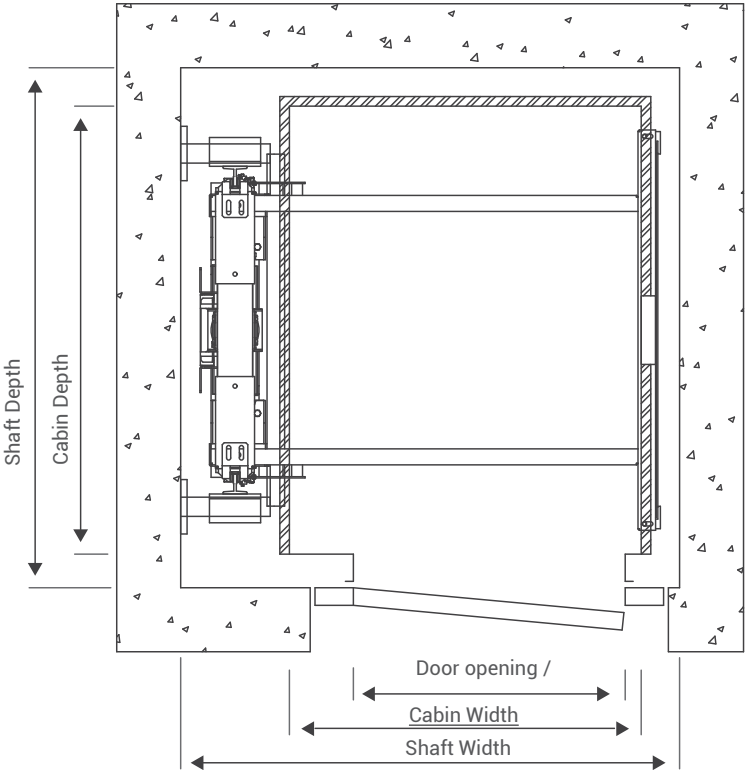

- Easy installation
- Low acquiring & installation cost
- Ideal solution for low pit and headroom shafts
- Optimum space efficiency | Maximum cabin size in a standard shaft
- Prewiring & single-phase power supply
- Modern aesthetics
- Compatible with the full range of Metron Cabins
- Certified according to Machine Directive 2006/42/CE

Load	Up to 400 kgr (5 persons)
Speed	0,15 m / sec
Max. Travel	12.000 mm
Max. Floors	4
Min. Pit	120 mm
Min. Headroom	2.600 mm

Single Entrance with Light Curtain

Human Relationships was the source of inspiration for Metron's New Cabin Models.

Our goal is to illustrate the three basic concepts which characterize human relationships: Contact, Love and Safety.

Like an embrace, that connects one man with another and creates the feelings of Love and Safety, like the links of a chain that are joined to each other, creating a safe and strong link, therefore, we chose as basic elements of our design, the white line which embraces and "joins" all sides of the cabin.

 Secondary colour: Starlight Grey from Metron Colours Collecton  
 Floor: Lounge Grey Tile, Ceiling: Leaf, COP: LF, Lighting: Yellow

# Light Life

Life Light Series is the result of combining two principal materials of a lift cabin, light and colour. We wanted to use these two elements in a radically different way compared to the current usage in the lift sector.

We managed to give the final users the ability to change the aesthetics of their cabin according to their mood, the season or the occasion. And all this easily, just by pressing a button. Life Light cabins have come to open a new chapter in the interaction between a passenger and a lift.
